DETAILED ACTION

Election/Restrictions

1. In addition to the claims that were previously withdrawn, claims 2, 19-22 and 51-54 are also withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected Species 1, there being no allowable generic or linking claim. These claims have additionally been withdrawn since upon consideration of newly revised drawings, species 1 and 2, as discussed in the previous Office Action, have been more clearly defined.

Election was made **without** traverse in the telephone conversation with Pricilla Ferguson on 4 June 2004.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 26, 56, and 58 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 26 and 56 recite the limitation "the straight shank segment" in line 2. There is insufficient antecedent basis for this limitation in the claims.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1, 13, 16, 27, 28, 43, 47, and 48 are rejected under 35 U.S.C. 102(b) as being anticipated by Carver et al. (US 4,334,381).

Carver et al. discloses an upper weighted hook, as best viewed in Figure 6, for partial embedment in a plastic fishing lure 4 comprising a hook shank 22, a bend 23 at one end leading into a reverse bend, and an eye 26 provided in the opposite end. The reverse bend terminates in a tip or point 24, which is spaced from barb 25. A double-tapered weight 27 comprises a lower weight taper and a top weight taper, both tapered to the shank 22, where the top weight taper is closer to the eye 26 than to the tip 24.

6. Claims 1, 3, 4, 6, 7, 9, 10, 12, 13, 15, 16, 18, 23-29, 31-33, 35, 36, 38-40, 42, 43, 45-48, 50 and 55-58 are rejected under 35 U.S.C. 102(b) as being anticipated by Hill (US 2,185,666).

Hill discloses an upper weighted hook for partial embedment in a plastic fishing lure comprising a hook shank 7, a bend 8 at one end leading into a reverse bend 8A (See examiner's reference characters, Figure 1), and an eye 5 provided in the opposite end. The reverse bend 8A terminates in a tip or point 9, which is spaced from barb 9A. A double-tapered weight 11 comprises a lower weight taper 11A and a top weight taper 11B, both tapered to the shank 7, where the top weight taper 11B is closer to the eye 5 than to the tip 9. The hook shank 7 is curved from said bend 8 at least to the top weight taper 11B. An offset bend 14 is provided in said shank 7 between said weight 11 and eye 5.

Response to Arguments

7. Applicant's arguments with respect to claims 1-58 have been considered but are moot in view of the new grounds of rejection.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
